INTRODUCTORES DE

RA TRIGO, CAFE, MAIZ, AVENA U OTROS GRANOS

PICADORAS DE FORRAJE

The image contains two detailed illustrations of mechanical machines. The machine on the left is a manual coffee mill, featuring a large hand-cranked wheel on the left side connected to a central shaft that drives a grinding stone. It has a hopper at the top for coffee beans and a collection tray at the bottom. The machine on the right is a manual wheat mill, also with a hand-cranked wheel, but it has a more complex frame and a different grinding mechanism, likely for crushing wheat into flour. Both machines are shown from a side-on perspective.
